

Eric Compton
DDS,
Owner

Dr. Eric believes that dentistry perfectly combines his enthusiasm for learning and science with his passion for people. Dr. Eric has been practicing dentistry at Compton Dental Center in Munster for over twenty-five years. He has helped literally thousands of people through the years by visiting them in hospitals, retirement communities, care centers, rehabilitation facilities, and their own private residences. Dr. Eric's personal touch and his concern for others are legendary in Northwest Indiana.

Janna Allen,
Director

Janna was hired by her father, Dr. George Compton DDS, as his dental assistant. Janna has been working at Compton Dental Center for over thirty years. Through the years, she has also worked as a concierge and a receptionist. Janna has years of experience doing dental work in various facilities, settings, and residences in Lake and Porter counties. Janna brings with her a wealth of experience and knowledge. Janna is truly devoted to helping others.

Dental Home Health

Through the years, we have had patients bring many physical and emotional challenges to our office. We know how difficult, tiring, and stressful it can be because we see it every day. We know that "life happens" and that coordinating an evaluation, a consultation, or denture work can become very complicated for you and your family. For these reasons and many others, Compton Dental Center wants to make your life easier. We are expanding our services by adding **Dental Home Health**. We now will come to your home, residential facility, rehabilitation center, hospital, and retirement community. We want to offer our services to those unable to access our care conventionally. Please call us now for your dental consultation/evaluation.

Smiles within reach.

Our Goal is to bring excellent dental care to anyone unable to access it conventionally. If a traditional setting is necessary, we will help facilitate transportation to and from our completely accessible facility.
